Alberta Lake Management Society
Théo Charette
PO Box 4283
Edmonton, Alberta T6E 4T3

To Whom It may Concern:

This letter is to be considered as a reference letter for the Alberta Lake Management Society. .

As a lake cottage owner I was experiencing much frustration in finding an organization interested in the deteriorating condition of Mons Lake.

Calls to multiple government environmental agencies produced little to no interest.

An internet search found the ALMS organization. The organization shared my concerns about Alberta's deteriorating lake water quality and arranged to have professional water testing performed on Mons Lake. I provided boat assistance to their professional for the several trips they made to the lake throughout the summer.

I am very thankful we have this organization in place.

Yours truly

Ed Boothman
